about the artist

“My art lives of bold colours and exaggeration and is reined by love for detail. My palette knife forgets any accuracy, but my brushes fight for the last bit of the finest shading.”

Wibke Seifert is of German origin. She is married and has three, adult sons. The family has lived in Malta since 1995 and runs an industrial business. During her quarantine in the first corona lockdown in March 2020, Wibke started painting rainbows as many people did.

She placed them in the window and wanted more. Experimented still in quarantine with oil and aquarelle, later with lino printing, acrylics and bronze, and she never looked back.

Wibke is as passionate about colours and shapes as she is about words. A novel and a collection of short stories were published in 2010 and 2015 respectively and they connect her past in Germany to her present in Malta.

In 2020 she contested in an international competition of short stories and her entry was published with a further twenty stories from Australia, Spain, the US and the UK.

about id-dar tal-providenza

For many years Nicky Paris and her Xara team organised a stunning fund-raising dinner in their beautiful location in Mdina in aid of Id-dar tal-Providenza.

Last year, 2020, and even this year neither the dinner could take place nor did many donations find their way to help and support.

¼ of the sales of this exhibition shall go in direct aid to Id-dar tal-Providenza. In support, the Xara is abstaining to ask for any commission on any sale.

Id-Dar tal-Providenza takes its name and charism from the Gospel. It is a residential organisation in the limits of Siggiewi committed to empowering persons with disabilities in a family-like environment.

Aim is to enhance and maximise their abilities with a view to ensuring their full participation in society.
